Important Disclaimer

For educational purposes only. The dosage charts in this PDF are provided for general informational purposes and are not a substitute for veterinary diagnosis, prescription, or individualized treatment advice. Amoxicillin dosing may vary based on the dog's condition, infection, kidney/liver function, age, other medications, and the specific product formulation. The tablet and liquid amounts shown should not be treated as a recommendation to medicate a dog without veterinary direction. Always confirm the correct drug, concentration, dose, frequency, and duration with a licensed veterinarian before administering amoxicillin or any antibiotic. Do not use leftover antibiotics or share medication between animals. If a dog develops a serious reaction or appears very ill, seek veterinary care promptly.
